

Team PotatoChips

Daniel Gelfand, Tabassum Fabiha, Shayan Chowdhury

APCS2 Period 2

HW #02: Speaking In Pseudocode

2018--02--01

Procedure

- 1) Start at top right corner (largest number in first row)
- 2) Check if current number matches the target. If Yes, done. Else, go to step 3.
- 3) If number at current location is larger than the target, move to the left 1 column.
Otherwise, move down one row to a larger number.
- 4) Repeat steps 2 and 3 until you cannot move left or move down.
