HW04 -- So Easy, Even a Caveturtle Can Do It

2018-02-05

Recipe for Merge Sort

1. Divide stack among adjacent classmates until each classmate has either ONE card or no cards.
2. Once sorted, the student passes their now sorted stack back to the original person who passed the list to them. *At the beginning, a person with only one card at the end already has a sorted stack.* The original person now sorts the two sorted lists they get back, sort them accordingly and pass it back to the person who gave them the cards.
3. Rinse and repeat until the original person who was given the stack has a fully ordered stack.
